

LETTER OF NO OBJECTION

Product Name: Unitab
Product Code: 53379
Date of Issue: November 15th, 2024

To Whom It May Concern,

This letter serves to confirm that the product specified herein is safe and suitable for use in food establishments as a general use sanitizer (V1) on all surfaces, provided that it is used in compliance with the following guidelines:

1.Surface Use: The product is intended for sanitizing all surfaces in and around food processing areas where direct contact with food is not anticipated. The active quarternary ammonium compounds will not exceed 200ppm. The surfaces are hard and non-porous and must be thoroughly drained for pre and post sanitization practices.

2.Pre-Use Preparation: Before using the product in food processing or handling facilities, all food products and packaging materials must be removed or adequately protected to prevent contamination. The surfaces must be appropriately cleaned and rinsed with potable water prior to sanitizing.

3.Post-Use Rinse: After the use of the product, all cleaned surfaces must be thoroughly rinsed with potable water and drained where appropriate.

4.Compliance with Directions: The product must be used in a manner that ensures no contamination of food products subsequently processed. Usage must be in accordance with the directions provided on the Health Canada registered label.

This letter is provided in alignment with the requirements set forth by the Food Safety Enhancement Program of the Canadian Food Inspection Agency (CFIA).

Dustbane Products Limited is committed to ensuring the safety and efficacy of our products and will provide supporting documentation to the CFIA upon request.
